

## RESOURCES

RESOURCE	USE (ACADEMIC/MANAGEMENT/SEL)	DESCRIPTION
<a href="#">Pixar in a Box</a>	Academic	I have used this in my math/science class. Pixar has partnered with Khan Academy to create lessons that excite students about animation and computer science. They provide a step-by-step lesson and the time constraints. These are great activities to keep students engaged.
<a href="#">Responsive Classroom</a>	SEL	I am a HUGE fan of the Responsive Classroom program. Responsive Classroom is a Social-Emotional advisory program. I have been at two different schools that followed their curriculum and it makes a huge difference in the schoolwide culture.
<a href="#">Tales from a Very Busy Teacher</a>	Academic and Management	I follow a lot of different teacher blogs. I am a fan of this teacher. She has taught both elementary and middle school, but she has great ideas in terms of lessons and management.
<a href="#">Cult of Pedagogy</a>	Academic and Management	This is a one-stop-shop of great blogs and podcasts relating to all topics. The articles are quick reads that provide great ideas for a specific topic.
<a href="#">Common Sense</a>	Academic and Management	I have used this website a lot as a mom and teacher. The non-educator side allows you to "preview" book and movie titles for age-level appropriateness. I have used the educator side of the website to find different educational technology tools.

### 1. *Pixar in a Box*

**URL:** <https://www.khanacademy.org/computing/pixar>

**Why you chose this site and how it relates to classroom management/behavior management/this class or how teachers can**

**use it:** I have used this in my math/science class. Pixar has partnered with Khan Academy to create lessons that excite students about animation and computer science. They provide a step-by-step lesson and the time constraints. These are great activities to keep students engaged.

### 2. *Responsive Classroom*

**URL:** <https://www.responsiveclassroom.org/>

**Why you chose this site and how it relates to classroom management/behavior management/this class or how teachers can**

**use it:** I am a HUGE fan of the Responsive Classroom program. Responsive Classroom is a Social-Emotional advisory program. I have been at two different schools that followed their curriculum and it makes a huge difference in the schoolwide culture.

### 3. *Tales from a Very Busy Teacher - Blog*

**URL:** <https://www.talesfromaverybusyteacher.com/>

**Why you chose this site and how it relates to classroom management/behavior management/this class or how teachers can**

**use it:** I follow a lot of different teacher blogs. I am a fan of this teacher. She has taught both elementary and middle school, but she has great ideas in terms of lessons and management.

### 4. *Cult of Pedagogy*

**URL:** <https://www.cultofpedagogy.com/start-here/>

**Why you chose this site and how it relates to classroom management/behavior management/this class or how teachers can use it:** This is a one-stop-shop of great blogs and podcasts relating to all topics. The articles are quick reads that provide great ideas for a specific topic.

*5. Common Sense*

**URL:** <https://www.commonsense.org/education/>

**Why you chose this site and how it relates to classroom management/behavior management/this class or how teachers can use it:** I have used this website a lot as a mom and teacher. The non-educator side allows you to “preview” book and movie titles for age-level appropriateness. I have used the educator side of the website to find different educational technology tools. Teaching middle school, I have found it invaluable in finding age-appropriate material, that will not expose students to content they may not be ready for. It also gives me an opportunity to ‘pre-teach’ any topics necessary.
